DETAILED ACTION

Papers Received

Receipt is acknowledged of the applicant's response, received on 15 September 2005.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 21-39 under 35 U.S.C. 103(a) as being unpatentable over Hunter *et al.* in view of Schmitz *et al.* and Valentine is maintained.

Response to Arguments

Applicant's arguments filed on 15 September 2005 have been considered but are not considered persuasive.

Applicant's arguments fail to comply with 37 CFR 1.111(b) because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references.

The examiner has already explained why one of ordinary skill in the art would be motivated to combine the prior art references of record, even if the applicant does not agree with the examiner's reasons for doing so. To simply say that the prior art references cannot be combined in the prior art rejection of record is wholly insufficient to successfully rebut the examiner's arguments set forth in the previous Office Action. The applicant also makes mention

Art Unit: 1618

of a supplemental information disclosure statement that was to have been filed, but no such submission has been received by this Office.

All pending claims remain rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
